

Land Transport NZ
Ikiiki Whenua Aotearoa

Topical research NZPI study tour

Richard Hurn, 26 July 2008

Topical research

- Managing transport challenges when oil prices rise (McCormick Rankin Cagney):
 - Forecast future oil prices
 - Estimate consumer responses
 - Consider implications for local authorities
- Transport Network Optimisation (ViaStrada):
 - Guidance about effective management of scarce road space
 - Case studies

NZPI study tour: Portland, Seattle, Vancouver

- These cities are becoming livable and resilient
- **Transport investments are used as a tool to enable land use objectives**
- You get the outcomes you fund
- Growth can be managed effectively through quality intensification
- Leaders need to provide a clear vision of success
- **Unwavering implementation delivers results**
- Transport efficiencies will come from reducing vkt
- We have effective processes
