Seminar: Making Household Energy More Sustainable

What can and should be done to make household energy use in New Zealand more sustainable? What policies are required?

Date: Thursday 9 October

Time: 12 noon - 2pm

Venue: Victoria University Law School (Old Government Buildings) Lecture Theatre 2, Lambton Quay, Wellington (Note: Lecture Theatre 2 is **behind** the main Law School building, close to the corner of Bunny St and Stout St)

Admission: By koha

Speakers

Alexandra MacMillan, Domestic Energy Users' Network (DEUN):
DEUN: A National Federation to Advocate for Sustainability and Equity in Meeting Household Energy Needs

Philippa Howden-Chapman, Wellington School of Medicine & Health Sciences, University of Otago: **Reducing Fuel Poverty through Residential Energy Efficiency**

Jonathan Lermitt, specialist in electricity forecasting: **Analysing the Response of the Residential Sector to the Hydro Shortage**

Frank Pool, specialist in energy efficiency programme design: **Designing Energy Efficiency Projects For Real Impacts**
